## TYPOGRAPHY

| Role    | Font     | Size / Weight       | Sample                              |
|---------|----------|---------------------|-------------------------------------|
| Display | Fraunces | 36px · Light 300    | How are you feeling today?          |
| Heading | Fraunces | 22px · SemiBold 600 | Your Mood History                   |
| Body    | DM Sans  | 15px · Regular 400  | Remember, it's okay to not be okay. |
| Caption | DM Sans  | 12px · Regular 400  | Monday, June 28 · 9:41 AM           |
| Button  | DM Sans  | 14px · SemiBold 600 | Start Breathing Exercise →          |

## UI COMPONENTS

### Chat Bubbles

### Mood Selector

### Buttons

## DESIGN RULES

### DO

- Use rounded corners (16–20px) everywhere
- Keep lots of white space — breathing room matters
- Use soft shadows, never hard borders
- Keep text calm and empathetic in tone
- Use emojis sparingly for warmth

### DON'T

- Use harsh reds or aggressive colors
- Crowd the screen with too many elements
- Use all-caps for body text
- Use dark mode as default (keep it light)
- Use clinical or cold language

## DESIGN SIGNATURE

**Fraunces serif + DM Sans pairing** — The display font (Fraunces) brings soft, humanist warmth to headings, while DM Sans keeps body text clean and readable. This pairing avoids the cold, clinical feel common in health apps, making Shione feel like a *companion*, not a tool. The signature element is the **gradient blue streak card** — it appears on the home screen as the emotional anchor, grounding the user's progress in something that feels meaningful and earned.
